Arthur Neal
Director, Program Administration
National Organic Program
USDA –AMS-TMP-NOP

Mr. Neal;

As a manufacturer of several dozen organically designated products that use several of the items on the National List I urge you to maintain the list unchanged.

The resultant upheaval a change would bring for absolutely no benefit to the organic community would be monumental.

Please don't hesitate to contact me if you have any questions or concerns.

Thank You

Roger L. Hoffman, President
